

Cubos Ni2 with Saunova 2.0 Control

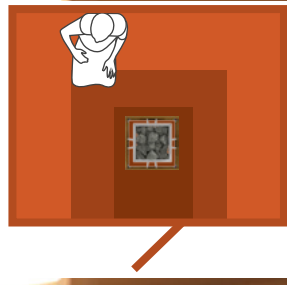

C U B O S

Cubos is 3 in 1 heater! It can be placed in the middle, corner or wall of the sauna room. Additional protective covers will add support for wall and corner installation. This modern and versatile heater is one of a kind.

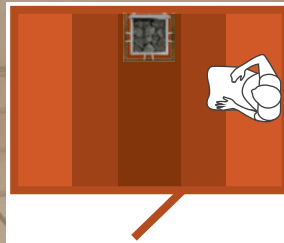

Cubos is also available with Saunova 2.0 control (Ni2). Ni2 heaters are effortless to install, easy and energy-efficient to use. Perfect choice for modern saunas.

Middle Installation

Wall Installation
with Protective Cover

Cubos is a versatile heater with 3 different installation options. By adding **Cubos Protective Cover**, the cubos heater can be transformed to Wall or Corner heater.

Corner Installation
with Protective Cover

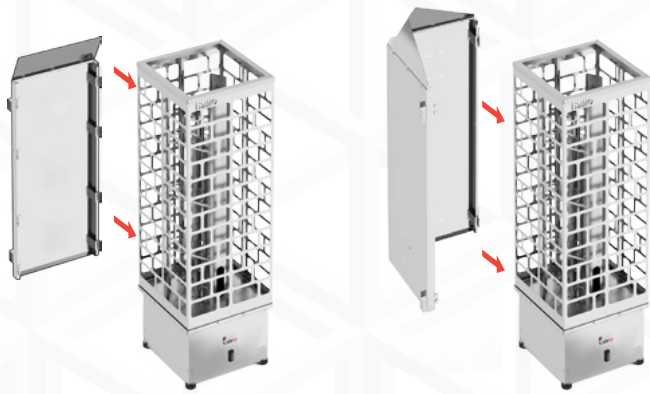

CUBOS FEATURES

Wall Installation

Use Cubos Protective Cover for wall installation. Best for sauna designs with limited space. The set of the protective cover for wall includes covering sheet and a reflector that directs heat even to lowest parts of the sauna room.

Corner Installation

Cubos quickly changes to corner model with Protective Cover for corner. Corner installation saves space and enables using different bench designs. The protective cover for corner set includes two pieces of covering sheet, a connection rod and a heat reflector.

Adjustable Leg Support

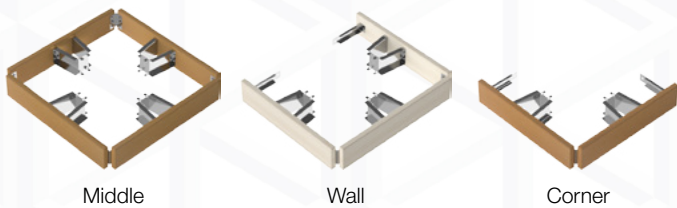

Like in all SAWO heaters, also Cubos has adjustable leg support. This will help you to level the heater easily by just twisting adjustable legs to get the correct balance.

Heater Guard Rail and Collar

Increase the safety and style of your sauna with optional Cubos heater guards and collars. Heater guards will protect against accidental contact with the heater. Choose your favorite from 3 different collars to add finishing touch to sauna design.

Saunova 2.0 Operated (Ni2), Separate (NS) and Built-in (NB) Controls

Cubos is available as Ni2 -model, where power controller is already located inside the heater. This makes installing effortless and space-saving. Ni2 is controlled with Saunova 2.0, that can be placed inside or outside the sauna room. It also has a smart controlling feature that will switch on/off the heating elements by section, assuring the more even heat and steam, helping you to save energy and time.

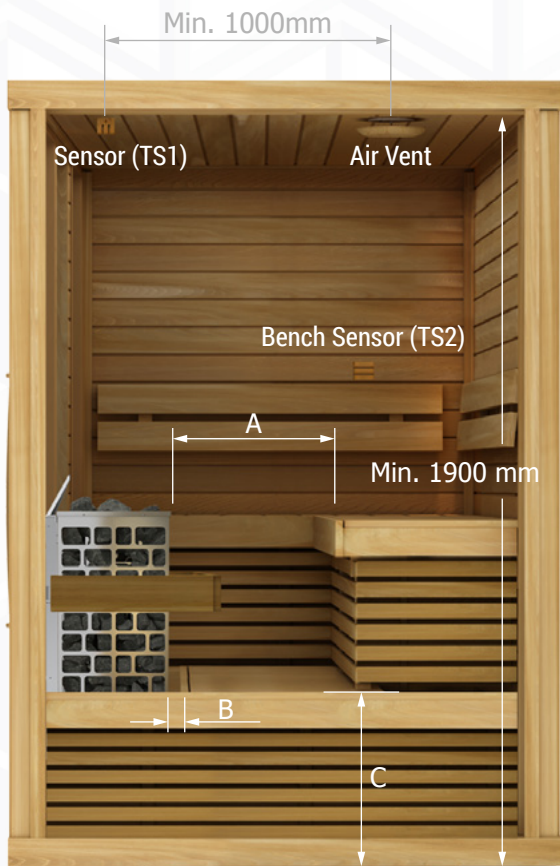

For Cubos with Separate control (NS) you can select any of the SAWO controls with additional power controller. Cubos is also available with traditional built-in control (NB).

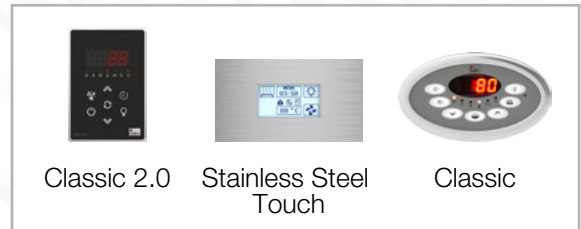

Saunova 2.0 Operated (Ni2)

Separate (NS)

Built-in Control (NB)

Controls for NS

Sensors

SAWO controls include one sensor (TS1). This safety sensor is installed above the heater and will estimate when the air temperature reaches the set degrees. By adding optional Bench sensor (TS2), the heater will reach the set temperature faster and more accurately by decreasing temperature fluctuations. This will also help you to save energy. As the bench sensor is located next to seating area the temperature is always perfect for sauna bathers.

Safety Distance (mm)

HEATER MODEL	A	AA	B	C
	(MIN.)	(MIN.)	(MIN.)	(MAX.)
CUB3-45 Ni2 NS NB	100	100	45	700
CUB3-60 Ni2 NS NB	100	100	45	700
CUB3-75 Ni2 NS NB	100	135	45	700
CUB3-90 Ni2 NS NB	125	135	45	700
