

# Venezia Smart

## Modern spiral staircase with handrail made of PVC

The spiral staircase Venezia Smart brings the light Italian flair directly into your home. The combination of flat wooden treads and curved bottom rails gives the staircase a dynamic and modern look. Thanks to the large selection of wood types and metal colours, the Venezia Smart perfectly complements a wide range of furnishing styles. The PVC handrail makes the Venezia Smart the ideal choice for anyone who values a pleasant feel and a slightly lower price.
